### DOSATRON INTERNATIONAL ANNOUNCES WATER-POWERED CHEMICAL INJECTORS TESTED AND CERTIFIED BY NSF INTERNATIONAL

CLEARWATER, Fla, March 1, 2016 – [Dosatron International, Inc.](http://www.dosatronusa.com) announces that two water-powered chemical injectors, the D14WL2NAFII and D14WL3000NAFII were tested and Certified by NSF International.

“We are excited to provide the only water-powered injectors that have been NSF/ANSI 61 Certified,” said Jason Maddox, Dosatron’s Regional Sales Manager. “Being NSF Certified means that Dosatron has two units, with a flow rate of 14 GPM that comply with the standard requirements for water safety. We know it is important to be aware of the impact Dosatron can have with water safety.”

Dosatron is increasing its role in public health and safety. Whether it is for water applications such as; residential drinking water, maintenance disinfection, remote drinking water or remote potable systems, it is important to us that we follow the protocol of NSF International.

NSF has 70 years of experience bringing attention to public health and safety. The NSF Mark, NSF/ANSI 61 sets the criteria and standards to regulate equipment used for water supplies bringing safety to the public.

For more information contact Dosatron International’s world-class customer service department at 800-523-8499, or visit the Dosatron International website at [www.dosatronusa.com](http://www.dosatronusa.com). Find us, on [NSF.org](http://NSF.org)
